

The Project

**Retreat Center
&
Community Living**

**Inspired by meditation,
creativity and healing arts**

*Circle
of
Friends*

**“The next Buddha will not take the form of a person.
The next Buddha will rather take the shape of a community,
a community that practices understanding and loving kindness,
a community that practices a way of conscious living.
This may be the most important thing for earth's survival.”**

— Thich Nhat Hanh

Who
we
are

Our aim...

What we have been looking for:

Since a few years we have been searching for a place where all generations could live, work, play and grow together.

We now have found the right place in Southern France, that embodies all the qualities we were looking for.

At the moment we are a group of 30+ individuals who are all dedicated to live a life in harmony with the planet, with oneself and with each other.

Our vision...

*Circle
of
Friends*

Walking each other home....

**We are dedicated lovers of truth,
open to embrace travellers from different paths.**

**We invite all generations and family types
...all are welcome here!**

Our pillars....

*Circle
of
Friends*

Meditation is our core.

**Participation, respecting nature,
celebrating life & death like “Zorba the Buddha”**

**“Man is here to rejoice, to live a life as beautifully,
as peacefully, as creatively, as comfortably as possible.”**

Osho

Our manifestation....

**Giving our vision a form in “the world”
A physical location for residents and guests.
Coming together on a spiritual path.
Co-creating. Practicing.**

Our vision meets the perfect place....

Creating and developing a physical location based on common values and self-responsibility, supporting residents and guests coming together, nourishing both roots and wings, self-reflection, living in harmony with nature, alone & together.

Our vision is to live in a place where we create an intergenerational community that supports meditations and workshops in the field of creativity and healing arts.

This place we found is built on a beautiful land of 8 hectares, with access to a large lake, has a huge permaculture garden and many fruit trees.

It consists of well-renovated buildings that have already been used as a seminar house and retreat center. It includes 4 group rooms, 115 beds, space for tents and caravans, and the possibility of adding tiny houses.

The place is already fully functional.

We just need to bring our dedication and skills together and take it over.

An aerial photograph of a large, multi-winged stone building complex with terracotta roofs. The building has several windows with blue shutters and a long section with a blue translucent roof. It is situated in a rural landscape with dry grass and trees. In the background, a large blue lake is visible, surrounded by rolling hills and fields under a clear sky.

The place...

*Circle

Meet some of us...

Utchi

After studying Physics at the Technical University of Berlin, Germany, I moved to Spain and founded an International company for the distribution of first-class martial arts equipment. The brand I created is now among the top three Karate brands in the world. For many years, I had carried the dream of a Tantric-Meditative Community and initiated the Tantric Community Spain in 2018.

I am one of the main investors and an ongoing advisor for this project. Personally, I wish to contribute - wherever needed - as a facilitator of group processes and meditations, and I like to express my love for the miracle of the body using Craniosacral Biodynamics, ARUN Conscious Touch, and Tantra Massage. I am also a teacher of Karate-dō, Utchi-dō, and Yoga.

Deva Prem: Architect, Gestalttherapy-Teacher and Ukulele player

I have worked as an architect in Barcelona and Black Forest/Germany. My life changed in 1992 when I took a Rebalancing training in Pune and was initiated in the Osho neo-sannyas.

In 1993 I have been the co-founder of the healing practitioners school Thalamus in Stuttgart. Healing practitioner, cranio-sacraltherapy, neuraltherapy, humanistic psychotherapies, Gestalt therapy, Rogers therapy, are all part of my background.

I have then been creating a seminar-house and Meditation Center with Rajan in Mallorca where I stayed for 20 years. Back to Stuttgart, I have been running my own practice, offering 3-year gestalttherapytrainings at the Uta Academy in Cologne, as well as client centered therapy trainings in Stuttgart, Encounter groups and more. Since 30 years I love communal living, I commit now.

Dagmar: Founder & Director of Montezuma Yoga, Costa Rica

My Yoga Studio closed its doors after 20 years and I am currently relocating my life back to Europe.

It is my deepest wish to live in a community. Why?
I believe community-living is the way of the future.

The world is getting more noisy & challenging and we are all getting older and so the best idea is to come closer together to support each other. To create a beautiful community. Where people share a vision and different generations can support each other, where we can share our gifts with the world.

Much love!

Ritu

As a young feminist and political activist I hitchhiked to India where I met the spiritual master Osho. And that changed the course of my life. I lived in his communities for decades. I am passionate about supporting people coming out of false identifications and finding their true Self, and I am a facilitator in the Path of Love process.

After many years now living what I call an “individual” life, I feel the call for being part again of a Community. This time not centered around a Master, but made of friends committed to joy and meditation, personal growth and celebration. Living in the delicate balance between sharing and aloneness, creativity and silence, love and meditation.

Shastro

He is one of the most well known new age recording artist in the USA of the last 30 years and is the founder and CEO of the US based record label Malimba Records that carries his music as well as that of other musician friends.

Currently he is holding Mindfulness workshops internationally, while in the past he has been the director of the School for Centering and Martial Arts in the Osho Ashram in Pune, India. Living with Osho has helped him deepen his understanding of the relation between music and meditation. After that he lived for 23 years in Hawaii, where a lot of his music was born.

Currently he share his time between the EU and USA, holding music events and meditation workshops.

Komala

In my youth, I was highly idealistic believing that I could create a more meaningful and harmonious world, designing spaces for people to live in communities.

Reality was a bit disappointing, so I started to dance and be interested in the healing arts, feeling my body as my compass. Following my intuition I landed in India and met Osho in 1980.

For 10 years I have lived in his presence, experiencing a true sense of community in Pune, then in Oregon and back in Pune, only leaving from there after his death.

I have spent the last 35 years living and working around the world, facilitating educational programs in Ayurveda-Yoga-Tantra as my language of remembrance.

Selma

For many years, I dreamed of raising my children in a shared, intentional community rooted in connection and meaning.

Thirty years ago, this journey led me into the world of quantum physics.

Twenty years ago, it guided me to become a professional trainer in hospital maternity and perinatal care, and a few years later, a transpersonal therapist.

Ten years ago, it brought me to Osho.

Today, I organise and translate seminars within the Sky Dancing school.

I feel ready to bring to life the dream that has been quietly growing in me.

A place to live and to die, to laugh and to cry.

A place rooted in freedom, aliveness and deep human connection.

Katrin

Interior Designer – Conscious Dance Facilitator – Lifelong Seeker

Thirty years ago, I left Germany and made Mallorca/Spain my home. Since then, I've been creating beautiful homes here and across Europe.

In the past 15 years, I've met many fellow seekers and discovered dance as a powerful tool for healing and expression. Apart from offering sessions and workshops as a Soul Motion Facilitator I created men-women circles and am very active in animal welfare.

A long-held dream of living in community has now started to take root, as I share a vision with this group of friends who are committed to a conscious and nature-connected lifestyle.

IN THE SOUTH OF FRANCE BETWEEN TOULOUSE & CARCASSONNE

Closest big village with schools, hospital and shopping facilities:
17 min by car

Climate Type: Characterized by mild temperatures
Annual rainfalls around 892mm

Distance to Toulouse airport:
50 min

Distance to train stations:
15 min

Andorra
